

THE IMPACT MAKERS

YUVA RURAL ASSOCIATION - QUARTELY UPDATES

Climate Actions – Renewable Energy

Community Power, Sustainable Change

Biogas beneficiary training & interactive sessions- raised awareness about biogas benefits and provided practical guidance on construction, maintenance, usage & cleanliness.

Capacity Building Workshop for Block Coordinators of Biogas Project

The workshop aimed to strengthen coordination at the taluka level and enhance the implementation of biogas initiatives across rural areas.

From smoke to sustainability: around 17,000 families now cook with clean biogas energy.

over 17,000 families now use biogas for daily needs. Farmers utilize biogas for cooking, while the nutrient-rich slurry enhances kitchen gardens, fodder, and paddy fields—ensuring clean energy, improved soil health, better crop quality, and sustainable livelihoods.

Reviving Urban Water Ecosystems for Biodiversity Enrichment

With 14,728 cubic meters of silt removed, embankments strengthened, and inlet channels cleared, it has begun receiving fresh rainwater again. A planned tree plantation will further ensure its long-term ecological health—signifying true rejuvenation and resilience.

Hands-on visits to 15 waterbodies and Harit Upvan deepened - understanding of water conservation and community-led rejuvenation.

visited 15 waterbodies and the Harit Upvan site (HCL Foundation) to learn practical water conservation models. Hands-on sessions, including water quality tests and infiltration studies, along with interactions with field teams, highlighted community engagement, maintenance, and site-specific rejuvenation

Brought SRI practices to farms for sustainable and higher-yielding paddy

Demonstrated and implemented the SRI method of paddy cultivation among 233 selected farmers for Kharif 2025-26.

“Less seed, less water, more yield – that’s the power of SRI (System of Rice Intensification) in every paddy field.” Says Shri. Chelampoddi Portet, a progressive farmer from Village Jijgaon, Block – Bhamragad, Gadchiroli

Bringing organic farming to life with Vermicompost, Dashparni Ark, and Jeevamrut demos

To promote Integrated Sustainable Agriculture Practices, farmers and SHGs learned eco-friendly practices through hands-on demos of Dashparni Ark, Jeevamrut, and vermicompost, while receiving tools and guidance to boost soil fertility, manage pests, and adopt sustainable farming.

Farmers showcased organic farms and learned eco-friendly practices with Neemastr, Dashparni Ark, Jeevamrut, and decomposers, while BRLF and YRA supported livelihood strengthening through government schemes.

HCLFoundation

A group of students in a classroom, sitting on the floor and working on projects. They are wearing blue uniforms. The room has a blackboard and a poster on the wall.

A group of approximately 15-20 people, including men and women of various ages, are gathered in a courtyard. They are sitting on the ground, some on mats and some on the ground itself, arranged in a loose circle. They appear to be engaged in a community meeting or discussion. The setting is outdoors, with large trees providing shade and simple buildings in the background. The ground is paved with large, light-colored stones. The overall atmosphere is one of a community gathering.

Greening Our Future: Trees and Biodiversity

- **50 fruit trees planted** (40 Mango – Dasheri & Kesar, 10 Jackfruit)
- **Green & Prosperous Maharashtra Campaign** organized for progressive farmers
- **156 saplings of 22 species** planted along the bund to enhance biodiversity, while students showcased creative models on water and the environment
- **Participants**, including PRI leaders, teachers, 45 students, 23 HCL Tech volunteers, and community members, took pledges to protect the environment and placed name tags on their saplings, committing to their care.

Empowering Children, Ending Early Marriage

Awareness, pledges, and community engagement, efforts continue to prevent child marriage

- Anganwadi Sevikas were informed about the **Prohibition of Child Marriage Act**.
- Priests, kirtankars, pothikars, Brahmins, Gram Panchayat members, and villagers took **pledges against child marriage** and spread awareness about its harmful effects.
- Children and adolescents learned about their **rights**, engaged in discussions on **health, education, and safety**, and took pledges to stay protected.

Key Messages:

- Child marriage is punishable.
- Every child deserves education, not early marriage.
- Together for a brighter, child-marriage-free future!

On World Day Against Trafficking, conducted an awareness program, broadcasting messages to help passengers **Spot, Stop, and Save** child trafficking victims while strengthening inter-departmental coordination.

Voices of Survivors program inspired 55 girls to resist child marriage & pursue education, with participants confidently advancing in MA, Polytechnic, SSC, & HSC students while motivating others to stand against early marriage.

Highlights during Quarter

COP - Conference of Panchayats – “Panchayat & Climate Change”

Yuva Rural Association (YRA) was proud to participate in and co-host the **Conference of Panchayats on Climate Change (COP)**, supported by ASAR and P-DAG, held at the **Chitanavis Centre, Nagpur**. The dialogue brought together grassroots leaders, governance institutions, and experts to emphasize the crucial role of **Panchayats** in driving climate action from the ground up. A special address was delivered by **Mr. Abhijeet Ghorpade**, Director, **State Climate Action Cell**.

Grassroot Team Capacity Building Program

YRA organized a capacity-building workshop at the DHARA Training Center, Kurhad, Dist- Washim, to strengthen grassroots leadership. The session energized field teams to drive community empowerment and ensure that no
